

## OFFSHORE RENEWABLES JOINT INDUSTRY PROGRAMME (ORJIP)

# Closing the loop: Feasibility study to determine a feedback approach for post-consent monitoring to reduce consenting risk in future assessments – Clarification question responses

14 February 2024

#	Question	Response
1	<p>Would CT/ORJIP consider bids that extend the project timeline from 6-9 to 9-12 months, to allow for more than one workshop to be organised over the duration of the project? Given the cross-section of organisations required in the workshop(s), it is likely that they cannot run over the summer when many participants will be engaged with fieldwork. Extending the timeline to 9-12 months would allow a project to be designed based on feedback mechanisms with multiple workshops.</p>	<p>We are willing to listen to variations to the delivery timeline within the proposal if bidders justify their reasoning.</p> <p>All project activities must be completed and closed by June 2025 at the latest.</p>
