

OFFSHORE WIND ACCELERATOR S4Y6

Clarification Question Responses

TWG-L – Walk-to-work standardisation (WTS)

21 August

#	Type	Question	Response
1	Project specific	Will all meetings and webinars (including the required workshop and stakeholder engagement) be held remotely, or is there any expectation for in-person attendance at any stage?	It is expected that these events will be held online.
2	Generic	To what extent will the Carbon Trust support the contractor in overcoming stakeholder engagement barriers (e.g. introductions, endorsement, or coordination with key industry players)?	It is expected that the appointed contractor will have relevant industry contacts it can use to support the delivery of the project. If the appointed contractor faces difficulties regarding stakeholder engagement, the OWA will aim to support the contractor's efforts however this should not be relied solely upon. Support could take the form of the OWA making an introduction to relevant stakeholder contacts or potentially writing a letter of support to help facilitate engagement to the project.
