

Certificate of Achievement

AB Tetra Pak

has measured, achieved a reduction in the product carbon footprints, and achieved lower carbon footprint in comparison to beverage cartons with fossil-plastic polymers in packaging and closures in its

Beverage Cartons with Plant-based Polymers in Packaging and Closures

Carbon Trust Assurance Limited verifies that AB Tetra Pak's Carton CO2 Calculator is capable of generating Carbon Footprints for all Stock Keeping Units (SKUs) within the 12 listed product families. AB Tetra Pak has re-calculated and shown a reduction in the carbon footprints for SKUs within these product families. The 12 listed product families are sold cradle-to-gate (Business to business) and cradle-to-grave (Business to consumer) and marketed in the Europe and RoW, in accordance with:

- PAS 2050: 2011 – Specification for the assessment of the life cycle greenhouse gas emissions of goods and services
- ISO 14044: 2006 – Environmental management – Life cycle assessment – Requirements and guidelines
- ISO 14067: 2018 – Greenhouse gases – Carbon footprint of products – Requirements and guidelines for quantification and communication
- Product Carbon Footprints - Requirements for Assurance V3.0 – Part 1

A detailed non-exhaustive list of verified Carbon Footprints Reductions, and comparative results can be found in the associated Verification Letter cert-no 13643.
